MAINTAINING RATES.

NOT IN TWENTY YEARS HAVE TARIFFS BEEN BETTER LIVED UP TO.

A Fifty-Five-Mile-an-Hour Train to Louisville—The Pennsylvania Railroad is revising its Employees' List.

"I am confident," said a well-posted freight official yesterday, "that not in the last twenty years have freight rates been as well maintained for one month as in January last, and, despite all talk that certain lines are shading rates, I know, from careful investigation, that there is no foundation for the rumor that the Canadian Pacific and the lines via New Orleans were doing such an immense business was largely exaggerated. Always when there is as good a corn crop as last year large quantities of corn are shipped via New Orleans. The Canadian Pacific is getting only the business it is entitled to under present conditions. The roads in the Northwest are very anxious to carry business, but between St. Paul and Chicago, for instance, they demand so large a percentage of the rate between St. Paul and Chicago that it is impossible to carry business. The rate between St. Paul and Chicago is now about 10 cents per hundred pounds for left for the lines east of Chicago. As soon as the trunk lines yield this point they will reduce the rate from Chicago, Peoria and St. Louis proportionately, so that any move in that direction would mean trouble, as shippers would take the matter up.

Union Pacific Reorganization Scheme.

Mr. J. D. Welsh, president of the Union Pacific Railroad Company, has submitted to the national Senate committee on Pacific roads the reorganization committee's draft of a bill for the reorganization of that road. This bill provides for: First—Appointment of a President, subject to approval of the Senate, of a commission of three members to investigate, and report on, the condition of the road, and to make recommendations for its reorganization. Second—Authority to the commissioners to subpoena and examine witnesses and to make reports to the commissioners, or a majority, subject to the approval of the Senate, on any matter connected with the road.
